Water Mills

Walk Mill

Walk Mill Lane,
Stapleford, Waverton, Chester. CH3 7BF
+44 (0) 1829 749 373

The mill at Walk was demolished in 1965. This current mill has been sited on the footprint of the original water mill, though it is a modern mill with an undershot wheel.

Walk Mill uses traditional mill stones to grind 3 types of flour – Wholemeal, Strong White and Malted flour. The flours are available in 1.5 kg and 25 kg bags.

This is good quality, cool milled flour, which is ideal for bread making.
