Water Mills

New Hall Mill

Off Wylde Green Road, Sutton Coldfield, B76 1QU
0121 526 3131

This is one of only 2 working mills in the Birmingham area and it is a grade 2 listed building. The building and machinery were restored in the 1970's to a working condition. Situated on private land in the middle of the New Hall Valley Country Park, the mill is run by volunteers as a registered charity.

The mill is powered up to mill flour on open days, but the produce is not for sale as the mill does not conform to the Food Hygiene Regulations. Flour that is milled on the day can be given away as demonstration samples. Check the website for details of the open days.
